

SENIOR CONSULTANT ROLE PROFILE

Summary

The Senior Consultant is a key part of the Blueprint team responsible for delivering project solutions to a wide range of client needs. In this role, as a senior member of the consultancy team, the post holder will be required to work independently with our clients or as part of a delivery team.

Project work is varied and can be based on the client site or in the Blueprint office. Blueprint clients are organisations who deliver exciting and challenging capital projects and have a need for Blueprint services in either supporting delivery and/or changing project delivery working practice.

At Blueprint, our values are at the core of everything we do - we eat, sleep and breathe them - which means they are implicit. We encourage our people to embrace these values and apply them both when working with the wider team and delivering client projects.

INTEGRITY

We do the right thing by our clients and our people

NURTURE

We nurture our team and care about our clients and our legacy

CURIOSITY

We're never afraid to question and we're always hungry to learn, innovate and improve

AMBITION

We are ambitious for our clients and our people, committed to growing the right way

Key Features of the role

Within the business, the Senior Consultant will have specialised in one of the following discipline areas and will demonstrate significant technical knowledge and capability in this area. The post holder will also need to demonstrate a good understanding in at least one of the other discipline areas of:

- ✓ PROJECT CONTROLS MANAGEMENT
